

MEDICAL STAFFING SOLUTIONS

By developing a way to measure and track how candidates learn about your opportunity, we arm our clients with advanced recruiting technology that no other firm offers.

PROUD MEMBER | SPONSOR OF:

How our
Technology helps
you produce results.

At Fidelis Partners, every candidate will be granted access to our state-of-the-art Online Community & Practice Presentations. We go beyond traditional presentation tools by harnessing the power of the Internet and making everything available to candidates in an integrated and intuitive online interface. **Your candidate will receive a link to a presentation customized for your opportunity, complete with videos, links, practice details and statistical information.**

With these presentations we have the ability to measure what aspects of a practice and/or community are most important to a candidate and ultimately we can share that information with you.

HAVE YOU EVER THOUGHT...

WHAT'S AFFECTING THIS CANDIDATE'S DECISION? WHAT DID THEY READ ABOUT OUR COMMUNITY?
HOW DO I KNOW IF THIS CANDIDATE IS REALLY INTERESTED IN THIS OPPORTUNITY?

WHAT IF WE TOLD YOU, WE KNOW?
AND WE CAN TELL YOU.

CANDIDATE INSIGHT

We use viewing statistics to gain insight into a candidate's concerns and interests. If a candidate spends most of his or her time viewing information on education and family life, our consultant will be sure to address "family life" and possibly arrange for a school visit during the onsite interview. It will give the candidate a complete understanding of the practice and the community, and it will help you better understand the factors affecting a candidate's decision.

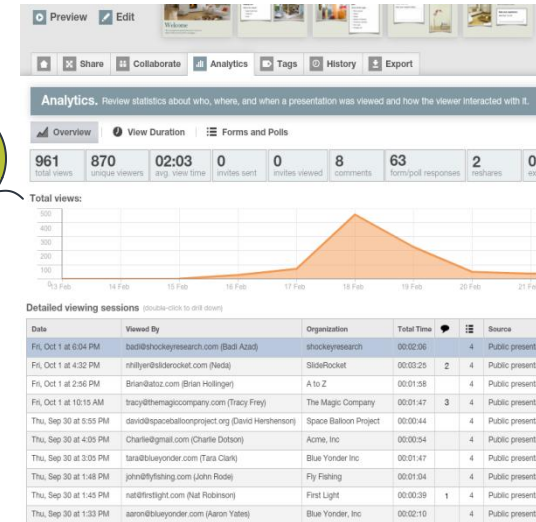

CUSTOM DESIGN

Our innovative presentations are completely customized for your community and your practice. Our Resources Department can design a presentation that matches your existing marketing materials with your branding.

MEASURED RESULTS

We can measure the effectiveness of any presentation by allowing you to see who viewed your presentations and where they viewed it. Your consultant tracks details on how long each slide was viewed and receives real-time comments and questions from candidates as they view it.
